

# Questionnaire: A presentation of the class

All participating classes must produce material about their neighborhood, their school and sustainability to a website focusing on three themes. The three themes which should be described in photos, drawings or short texts are:

## 1) The class' "hood"

- What does your neighborhood look like, how is it to live and play in your local community, area – your "hood"?
- Explain what you mean by the terms "neighborhood", "local area" – your "hood"
- Attach three photos and/or drawings of your "hood"

## 2) The school

- Describe your school
- Explain where you live compared to the location of the school
- Attach a maximum of two photos of the class taken OUTSIDE the school which communicate a sense of the landscape and the local neighborhood – the "hood"

## 3) Environment, recycling and sustainability

- Are the environment, recycling and sustainability on the agenda in your school?
- Using photos or drawings show which areas in in your local hood or which schools in the local community, that focus on recycling and sustainability.
- Using photos/drawing and writing make three suggestions to new initiatives focusing on recycling and sustainable solutions in your hood.
